

Atlantic Canada Caravan

JUNE 27 – AUGUST 11, 2011

Charming fishing villages, lighthouses, expansive forests, lobster suppers, huge tides, quaint farms, whales and exotic sea birds, sand dune covered beaches, and rocky ocean cliffs beckon you to the 2011 Atlantic Canada Caravan. But that's only part of the story. It is also a region rich in history and culture, inhabited by friendly people with strong French, English, and Scottish influences who display their proud history through their many wonderful museums and strong historic preservation. Add to this some of the most spectacular and accessible coastal drives in North America and it's easy to see why the Atlantic Canada Caravan is a popular destination for our WIT members.
