

2006 VIEW SPECIFICATIONS

Each and every part that goes into our motor homes is well thought out. From the nap of the carpet we choose to the capacity of the refrigerator, no detail is too small to avoid our scrutiny.

Carpeting w/pad, Vinyl galley, bath, Stepwell rubber tread	S	S
---------------------------------------------------------------------------------	---	---

a The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.

b The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.

c Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.

d Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.

e Actual towing capacity is dependent on your particular loading and towing circumstances, which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.

Standard - S Optional - O 23H 23J

FURNITURE

Dinette w/interior and exterior access to storage below front seat, Sofa w/access to storage below, throw pillow	S	
Dinette w/interior access to storage below both seats		S
