

Med One is a mobile medical or dental clinic that can provide you with a fully functional office specifically designed to meet your individual needs. Whether your application includes health screening, community dentistry, corporate dental programs, community outreach or any number of other medical or dental applications, a mobile clinic provides the flexibility to better meet the needs of your patients and clients.

Mobile clinics are available in two models with optional slideout rooms. These models can be designed and customized to fit your particular application. Visit www.winnebagoind.com
